Representatives from Heart Rescue, CARES, Team Resuscitate New England, and the NH Bureau of EMS have partnered to host this inaugural event. This partnership is not the result of a grant or legislative act. The summit is an opportunity to look at:

- Implementing meaningful data collection
- Developing cardiac arrest systems of care
- Strengthening the chain of survival including bystander CPR and AED programs
- Concepts of improving EMS care including high functioning CPR
- Streamlining and improving the care of patients with Return of Spontaneous Circulation (ROSC)

Speakers include:

Nick Mercuri, Chief of NH Bureau of EMS
James Suozzi, DO, NH State Medical Director
Bryan McNally, MD, MPH, Executive Director of CARES (Cardiac Arrest Registry to Enhance Survival)
Tom Rea, MD, MPH, Heart Rescue Program Director
David Hiltz, Team Resuscitate New England
David Rivers, the Bureau Chief of The Bureau of Emergency Communications
Eric Jaeger, True North Group
Jeff Meier, Sergeant, Lincoln Police Department
Shawn Riley, Deputy Chief Laconia Fire Department
James Flynn, MD, Catholic Medical Center
